MEDICAL TREATMENTS

Modern lifestyles require a beauty-on-the-go approach. Give your complexion a more youthful appearance without interrupting your daily routine. Each of our solutions is a safe alternative to more invasive (and risky) procedures. We offer treatments heralded worldwide as effective options for anti-aging and skin rejuvenation.

MEDICAL TREATMENTS

BOTOX

Price varies
BOTOX® Cosmetic is a simple, nonsurgical, treatment that can temporarily relax muscles that cause us to look worried, angry, or just plain older. The procedure is officially FDA approved to treat the frown line (glabella) but we use Botox Cosmetic for numerous other locations. We can soften forehead lines, crow's feet, neck bands, lip lines, and help give eyebrows a lift. One 10 minute treatment... a few tiny injections... and within days there's a noticeable improvement. We offer topical anesthetic prior to the procedure which makes it painless.
www.botoxcosmetic.com

RESTYLANE/JUVEDERM

Price varies
Restylane® and JuveDerm® are safe and natural cosmetic dermal fillers that restore volume and fullness to the skin. The most commonly "filled" areas include the nasolabial folds, lips, frown line, hollows of the eyes, and Lip volumizing. Acne scars may also do well with this type of filler. They are both composed of hyaluronic acid, a natural clear jelly like substance that already exists in the human body. Results can be expected to last from 6-12 months. There is mild bruising and swelling at the injection sites but makeup may be applied 4 hours after treatment. www.restylanusa.com & www.juvederm.com

DERMAPLANE

Price varies
A physical exfoliation for all skin types. A medical instrument is used to gently remove the dead surface cells from the epidermis. Fine facial hair is also removed leaving the skin soft and smooth. This treatment is recommended monthly.

MICRODERMABRASION/DERMASWEEP

\$100.00
The Dermasweep system cleanly sweeps away the epidermis and then vacuums away the dead skin. The addition of the infusion of topical solutions not only allows for the deepest delivery of targeted skin care solutions, but also is part of the reason Dermasweep MD Treatments are so well tolerated by patients.

MICROPEEL PLUS

\$150.00
This unique 4 step process starts with a dermaplane to remove dead skin cells. Second, a microdermabrasion is performed to help stimulate the skin by producing blood flow. Next, an AHA acid is applied according to your skin type. Lastly, Cryogenic Therapy is performed to help relieve inflammation and cool the skin.

JESSNERS PEEL

\$200.00
Designed to remove superficial layers of skin, it is one of the most effective cosmetic peels available. The Jessners Peel is excellent for all skin types. It smoothes and rejuvenates the skin, producing beautiful results in treating mild to severe acne, discoloration, moderate wrinkling and sun damage.

SALICYLIC PEEL

\$95.00
This is a fifteen minute in-office procedure that will help smooth fine lines and even skin discoloration while reducing the appearance of acne scars and environmental damage to the skin. This treatment is recommended for active acne.

LHA CHEMICAL PEEL

\$95.00
Correction of superficial skin imperfections such as dull skin, uneven complexion, roughness, skin texture and surface irregularities, the appearance of fine lines, wrinkles and pigment spots.

An ounce of prevention is worth

A hair in the head is worth two in the brush. - *Oliver Herford*

The power of water cannot
be underestimated. It
surrenders then engulfs;
it solidifies then melts; its
flow gravitates then its mass
levitates. Let water be the
catalyst for your sensuous
escape amidst aromatic bath
salts and candlelight.
